From a gameplay perspective, this game is super fun. It's kinda like Diablo meets Custom Robo. You are given a mech that you are able to customize with a variety of weapons and armor, each with their own benefits and drawbacks. I'm a bit early in the game so it's hard to say how deep the customization gets, but so far I've been happy with it and I'm constantly switching gear around based on what kinds of boosts or debuffs I get from a weapon/piece of armor. I imagine as the game goes on, you'll have to be more thoughtful with what you put on your mech since there is a power limit, halting you from putting whatever you damn well please on your mech. A bit prohibitive, but it's understandable. The missions are pretty short, at least from what I've played so far (about 10-15 missions, Rank E-D). The game has a ranking system and the replayability will come from S-Ranking every mission. If you are looking for a game where you can customize a mech and slaughter a bunch of other mechs, then this is perfect for you. The \$15 price tag is also attractive.

In terms of presentation, the game runs and looks fine. Weapon effects look cool and the sound effects give you a sense of impact. The audio sounds a bit too loud overall, since the game is originally meant to be played on a handheld, but you can adjust the audio levels to your hearts desire. I've had no frame drops in my time of playing so far, so they at least got that down well. I imagine this game can be played on low-end computers well too since it's just a port of a PS Vita game.

Overall, it's a really fun game that certainly has a budget feel to it, but if you go in expecting that, you'll have a good time. The most attractive thing about the game is being able to customize a mech, which this game does well. It's sad that mech games are practically non-existent on PC, but this is a good game to scratch that mecha itch. Only big complaint is that there is no multiplayer. This game BEGS to be played with other people, especially since there is an in-game arena where you fight other mechs 1 on 1. Perhaps that can be added in the future, but I doubt this game will get any post-launch support.

TL;dr: For a \$15 mech game, it's fun as hell.. Some crash workarounds and two annoying minigames later, I can tell you this game is pretty solid, if you have the patience.. \uae30\bcbf8 \uc2dc\uc2a4\ud15c\b9cc \uac16\uace0 \uc788\b294 \ubb3c\b9ac \ud37c\uc990 \uac8c\uc784. \uc678\uc591\uc740 \uc815\b9d0 \uc2e0\uacbd \uc548\uc4f4 \uae30\bcbf8\uae30\b9cc \uac16\uace0 \uc788\b2e4. \uc694\uc998 \uc138\uc0c1\uc5d0 \uc774\uc815\b3c4\b85c \ud654\uc7a5 \uc548\ud55c \uc0dd\uc5bc\uc774 \ud314\b9b4\uae4c\b3c4 \uc2f6\uae34 \ud55c\b370 \ucc38\uace0\uc0bc\uc544 \ud574\bcbf8\b9cc\uc740 \ud558\b2e4. \ucc38\uace0\b85c \uc694\uc998 \uac8c\uc784\uc774 \uc544\b2c8\b2e4. 2008\b144 5\uc6d4 22\uc77c \uc2a4\ud300\uc5d0 \uc785\uace0\b41c \uace0\uc804(?) \uac8c\uc784\uc774\b2e4. (\uc624\b514\uc624\uc11c\ud504\uac00 2008\b144 2\uc6d4). Wait, did I spend money on this?

It's a parody game, poking fun at a lot of things, but especially at bad games in general. It is quite funny at times. I was laughing out loud at the finale sequence. But it's absolutely not worth any money.. Well made Early access game.

One issue is the poor connection causing you to miss shots.

Other than that a fun and enjoyable game.

And also Micro Transactions..... I threw so many books that it pushed me out of bounds and gave me an achievement..
Iu2019m stealing someone else's review "this caught me off guard!" in a very big way. Controller is not optional that just fine with me. I absolutely adore music games *not rhythm game specifically* but things like Beat Hazard, Beat Buddy, Kick Beat, Fract OCT, ect this one is very different and add a brand new charm to the idea of music in games it almost feels like a "runner game" Iu2019m not very fall in as i just wanted to see what it was like before going back to the 100 hour commitment i have to Mad Max currently but as soon as i am done with that Iu2019m going to spend some serious time with this gem.. You want to know what's fun about this game?

The cool music!

The rad level layouts!

The awesome character design!

You want to know what's not fun about this game?

Bat Jumping. That level is garbage, there's like a 50% chance you'll actually make it to the next platform if you land on the bat like you're supposed to. This level wasn't fun, it was cheap.

Other than that one particular level, this game is great! 8/10

Edit: Actually, all sections where you have to jump on bats seem to be broken. So if you're at a part where there's bats... I gotta say it's a solid 7/10

Edit (again): Wow, they still haven't fixed the parts with the bats... seriously?? 5/10 I guess?

Edit (again again): well... as someone who's played over 6 hours of this garbage game... They Breathe is about the same price, but doesn't have any annoying bugs. This game is fun and scary, great VR experience. A lots of jumping scare, I'd love the story though. hope the creator make this game less jumpy and more scary^^. I have been playing this game since i was little was very excited to hear there is a second version as I thoroughly enjoyed playing it the first time. I Bought this second version with high hopes and was pleased with the new campaign.

Something i was disappointed in was the lack of improvement in graphics between the first and second version. Some better graphics would make this game so much more satisfying to play nowadays. The graphics seem arcaic when played today.

Otherwise the game is highly recommended by me. It is very enjoyable and it works well.

This game is beautiful, but too short. Just add a level editor, and game will become much more interesting and playable.. 2 broken achievements. Not for achievements hunters.

Otherwise good game. Scary walking simulator with basic puzzles.. Great story that begins lightheartedly but ends on a sad note. How much it affects you I guess depends on your nature and experience; I had to take a break near the end.. Choose an animal and destroy everything in a given lapse of time to unlock next levels.

- 7 Levels
- 12 Animals
- 1 hours of gameplay (more if you want to 100% it)
- Cheap
- Solo and Local Coop only
- Cards

. How can you finish the secondary goal in the first mission: Rhzev. You have to bring the heavy infantry and stug to the assembly point. I did, no completion.

Can you describe the goal better?. This game is awesome-The port could be better, but if you get past the issues it's just as incredible as it was on Wii.

Ramen.. Despite the somewhat blurry (low res) 360 degree video I've found it to be a really enjoyable and informative experience. The video quality really doesn't detract that much from the experience and gives a good feel for the layout of the area. The modelled areas are high quality and the interviews interesting. I've not finished it yet but seen enough to post an opinion.

All in all a good job by the devs and recommended for anyone genuinely interested in the Chernobyl disaster and aftermath. Even better value if bought in the sales ... as I did.

. Fun gameplay and would be amazing with multiplayer.
