Okay, so I loaded in to the game then went to single player then I looked for the Ferry's and they were not there so someone please tell me how it works.. i have downloaded this pack and no dlc keys. ITS ASHAME THAT I GET TO BUY THIS ADD-ON BUT NO cd key FOR IT ??? FUKN NICE ONE !!!

. Lovely selection of ferries here. I would like it more though if you had included a Sydney ferry. Reccomend it :). I buy this dlc and i don't get a dlc! Give it to me please!!.. where is the licence key for the ferry dlc

. 10V10 (AMAZING)!

Take control of a ferry across the english channel or New York Bay and feel the power and the knowing that you are responsible for hundreds of lifes and one wrong move could kill 100+ people. Lots of ferries. Different designs and functions. Alright overall.

8V10. i dont becuse it will not dowlod the pack i got for 5 doller

I am very dissapointed with this as I have purchased it but have not got an activation key to make it work... and that was after I paid for it. If anyone can help though, I'd appreciate it as it looks like a good, value for money product. If only it could work.. I buy this dlc and i don't get a dlc! Give it to me please!!.. where is the licence key for the ferry dlc

. I downloaded the extreme collection pack with all 6 dlc packs and it hasnt given me the cd key for this one.. can anyone help please on how i can get the cd key??. 10V10 (AMAZING)!

Take control of a ferry across the english channel or New York Bay and feel the power and the knowing that you are responsible for hundreds of lifes and one wrong move could kill 100+ people. I always sail Rozenburg Accros padstow,, this is a great pack.  
**GENERAL OPINION**

My purpose as a gamer is to experiment with the content that is given to me. For some time now, SSE has been under my watchful gaze and I must note that it does not dissapoint. The Game has multiple DLC packs that add a variety of stunning, beautiful ships to a gamers experience. This is an amazing DLC pack.

#### **GAMEPLAY**

The Ferries themselves are beautifully recreated and are as simple to control as any other boat in the game. They also add a new type of throttle system which I had great fun trying to figure out. The only problem that I have with these Addons is the fact that there are not as many as I had hoped, Maybe Paradox will make another pack and if they already have then please, someone direct me in the direction of it via a link or search term.

#### **SUMMARY**

Apart from the lack of boats there is not much I can get into that is worth mentioning. I will continue to play this game when I can and I will edit this review if I feel the need to at any point.

As it stands my score for this pack is 8.9V10 (BRILLIANT)

. this pack, like others, is very detailed and it includes about 5 ships i think? anyway, some people say 2.99 is a lot of money.....
