無様な瞳を輝かせ キマリ光る虹向さめる
そんな仕舞に心を奪われ
鈍鈍の眼が煌煌と生輝 加齢向望門扉の露光
舞草の動作が奪走了我的心

現時中が変化した 瞬間世界が取り出す
境界を越えて行けそう
我的心緒逐漸改變 瞬間世界天翻地覆
就要越過那扇的邊界

Early access... Way too early. The graphic are inconsistent. The lighting needs a lot of work. Gameplay is sketchy. Also, what's up with the invisible walls in front of the building? If I want to go smash my face against a wall, I like to be able to lol Seriously, I had expectations for this game, I would have liked a Indie version of Watch Dog, where terminal hacks are possible. Even maybe a bit of programming involved.

I played it and I figure that I shouldn't have. The only people who should play this game at that moment are the developpers. Advice to make it a great game, focus on one thing at a time, there's no point making progress in the story if the first half an hour of playing the game feels like torture.

Ok maybe it's not fair, I have been trying to find a game that you can move like in Watch Dog(or even a mix of Assassin Creed and GTA) and perform terminal hack like in Hacknet.

If anybody find such a game, please sign me in.
In the meantime, I will follow the game, because you never know...
With dedication and an open mind, everything is possible.

Good luck!. I was hesitant to buy this when I saw the low amount of reviews but reading those 50 reviews (the majority of which are positive) I thought I may as well try it out. I mean I can always refund. I then purchased the title and jumped online to discover all of the official servers empty. In total there were only 6 people playing online. I almost refunded it immediately. I mean for a new release to not have any real online community was disheartening.

I decided to play anyway with the intent to refund the game. Well 2 hours later I was having a blast. This game is a lot of fun. Kind of an old school adventure game. For a simple looking game it is actually quite a bit of fun and is certainly challenging so far. The game runs great and the bugs that I have discovered are very minimal and in no way game breaking so far. In fact this is one of the better EA releases I have played; and I fall for a lot of EA titles. This one shows a lot of promise. It's a relaxing game to play with plenty of tense oh %\$#@ moments to mix it up. It is not D&D but it reminds me of D&D adventures...

There is a lot of work ahead for the devs but so far so good. Even with the lack of player pop I will play this anyway. I love a good survival/adventure/fantasy type game.. HELLO this game is a very good game and it's perfect for multiplayer.Please astragon add multiplayer in this game.PLEASE. Now i love drones i own a few my self this game is a bag of crap steam refund here i come. Have you heard of the high elves?. ZION was released too quickly after being greenlit. It's hard to believe that the game could not be improved if the effort was made. I didn't expect this to immediately show up on Steam after it was greenlit and not even be in early access. The concept is great and there is potential, however, the game never made it past what is clearly a very underdeveloped state.

ZION should be changed to early access (if possible) and should be worked on regularly. Improvements should be made and updates published for the players. This game could actually be something if it got the attention it deserved. Currently, I feel bad for anyone who voted for this game on greenlight and V or purchased it afterward.. Storyline is good but you get many options and no idea in knowing if you can do them or not.

And some options require too much stat so early on in the game.

Other similar games do a better job in informing if you can do something or not or only the options you can successfully do will be available to choose or in bold.

This game needs some more mechanics. At least automatic failure does not mean immediate death so loosing a roll is not the end of the game. But later on you don't know if this choice can be done or not because you don't know how much skill you require and eventually you will end up dying.. Full Disclosure Desert Owl owns Pox Nora therefore I auto purchased this game

with the intent to give them 10/10 review and possibly encourage another sale or two.

Happy to say (and suprised) that I like the game enough to say it's worthy of purchase all by it's self. It's a nice little puzzle/coffee break game. It's in fact a more colorful and far more enjoyable version of "Snake" which isn't all that exciting in and of itself. However there's something to be said for keeping it simple and sticking with what works. It's bright, challenging, and the core premise taken right from the of the original Snake's core and only mechanic is still enjoyable.

It's not groundbreaking but again Pox Nora so.....10/10!!!! MUST BUY. At first, I was sceptical about a Portal mod that focused solely on energy pellets, so I was delighted when this mod far exceeded my expectations. The puzzles, while challenging, do not require any ninja-skills, being instead very logical and fun to solve.

I would definitely recommend Rexaura to all fans of Portal, especially since it is free.

Awesome idea; I love it! VR Surviving is interesting and intriguing. Can't wait when the game will be finished. Bought it to support Alex.

Keep it up :). This isn't Football Mogul. Wanted to like it but can't. Save your money. Even if it's on sale.. pretty good game. I do recommend this game because it's better than the PS4 version but does anybody else notice when you go into intimacy mode and do stuff the girls have no reaction like in the older games if I'm not mistaken that's soft censorship. This game was a truly fine addition to my library, enriching my life beyond its limits, but sadly I wasn't ready for it. In short they gave me a refund and restored 49 cents to my wallet.. I CANNOT recommend this game enough!!! I hope this demo gets developed further! A MUST for VIVE owners!!!!

I hope other VIVE developers take this style of play and movement and incorporate it into more games!

Download it! No question about it!!! BEST \$3 you will spend for the VIVE!
