About This Content

It's an endless struggle trying to please the people of Tropico – and this time El Presidente needs to go green in order to get out of trouble. Of course, this is all to protect the funds of his Swiss bank account – which are obtained through the simple method of exporting ludicrously large amounts of crude oil to competing superpowers. Help El Prez promote a better image of the island by building 100% eco-friendly windfarms as a cheap and renewable source of energy and turn Tropico into a positive showcase of modern sustainability.

- New standalone scenario: „Catch the Toucan!“ – Early bird catches the windmill rotor
- New building: The Windfarm – A clean, renewable source of energy
- New dynasty avatar accessory: Blend in with the eco-crowd with your new hippie haircut
- New sandbox map: Isabella
- New music track and additional voice recordings

Kickstarter backer - Glad to see the game improve over time. Can't wait for release.. So you like everything Mortal Kombat, and you even love the original movie? OK, well you better just dump your expectations in the trash because this whole series is a bland, cheese-flavored snack and nothing more.

Do not expect your appetite to be sated.

Do not expect your favorite characters to do everything they're known for at one point or another.

Do not hope for Noob Sabot.

Do not even think you'll get fap worthy material from the girls.

Because none of it is here.. I bought this game with sale coupon, it's worth the money :)

+Trading cards. Lots of bugs.. Honestly not bad. If you like puppies and can find something to play in the background, go for it. Though someone at EnsenaSoft has to learn how to count. There are not 'hundreds of puzzles'. There are four sets of 21 cute pups. And if you don't like puppies and mindless fun, well I can't help you.. A classic arcade shoot 'em up, but pretty bland in its genre. Looks good enough and the other technical aspects are fine, but the game just doesn't offer anything that isn't already done better elsewhere. The plot seems dull with overtly stereotypical characters and the enemies are unimaginative.

It's like Jets 'n Guns, but without all the neat stuff which made JnG so awesome.

Pick this up only if you're a die-hard shmup fan who doesn't have anything else to play.. There was a "Free house" thing advertised so I decided to dust off the game and give it another try.

First thing I did was shoot some animals with my bow and a few zombies until I was overloaded with loot. Then I ran around for an hour trying to find someone who would buy my stuff. Town after town was empty except for vendors sitting on the ground with no interest in buying anything from me. I pressed on and after an hour and 45 minutes I found a robot sales trainer thing and sold my loot for about 250 gold. Combat was not very fun. I had to get real close to shoot my bow and run back words to kite stuff. Pretty much hit "1" to do move, hit "3" to heal, hit "2" for second bow move and mash they one that was ready. The big travel map made exploring kind of pointless. I would find an "adventure areas" but when I went in them there was not much of an adventure, just mindless things to shoot my bow at. No one to save, nothing interesting to find although there was a shelf in a tent with some empty jars I stumbled across. That was pretty exciting. I jumped off a small rock and died. That was the funnest part of my playing session. I just kept thinking, "why aren't I in heaven where I don't have to play this game anymore?" There were tons of player towns but I am not sure what their purpose was. Just the odd vendor sitting on the ground looking depressed and not interested in buying anything. I saw maybe 8 other players but they just ran by me...maybe looking for vendors who would buy their junk like me. AND I could not figure out how to find or place the free home they were offering. After about 5 minutes of trying to figure it out I decided that the game is not for me. Not sure who it is for, but maybe there is fun stuff in there somewhere. It was better then last time I tried it but pretty much every other MMORPG I have played is better... well not pretty much. Every MMORPG I have played is better then this. But it is free although every free MMORPG is still better including Runescape, Ultima Online and Everquest. I would rate this game 4 out of 10.

This game is great to all that loved the gameplay from banjo, nuts and bolts simple and fun cant wait for mp. It's like GNOG but not so intuitive and weird. I bought this game not expecting anything. But truth be told, this anusual game with its old school gameplay and great story was great way to pass some time.. Poor, poor sh*tty game...

For children under 5 years...

In brief it \$**KS ! (and even more than you think...)

A PS ONE Game and i'm very gentle.

- . 1. Play Stronghold Faction
2. Get Cyclopeses
- 3.Cyclops Smash

10/10 Would play again. disclaimer - I work for Kongregate but have nothing to do with the game or the developer, I just legitimately like it]

A short, difficult, but engrossing shooter. It's almost more of a puzzle than a shooter though - it's a series of challenges that you grow to understand over time. It's short, but it is a carefully-crafted experience that has a lot of brilliance in the level design.. The similarities with Limbo are definitely there, with less visual poetry and more variety. Toby is a good puzzle platformer, with a good challenge level and solid gameplay. If you like 2D platformers like Limbo, you\u00b4ll love this game. Sadly, it does little to change or expand on the formula set forth by Limbo. Regardless Toby is a charming platformer with plenty of fun challenges and difficult obstacles to overcome.
